

**The Smartest Distance Between Two Points...**

**... is a Trenwa Trench!**

 **Trenwa**  
TOUGH ENOUGH TO TRUST

For over 50 years Trenwa, Inc. has been the industry standard in precast concrete trench systems. Our designs have been refined to be the most durable yet affordable underground concrete trench product available.

## Accessible !

Our lid options are the broadest in the industry.

- Low cost, high strength fiber reinforced concrete
- High durability, crack resistant polymer concrete
- High strength, long life galvanized steel
- Lightweight, corrosion resistant aluminum
- Tough, lightweight fiberglass/composite
- Vent lids for convective air cooling

## Flexible !

- Widths - 10" to 96"
- Depths - 12" to 72"
- Layouts - Unlimited!
- Miters, 90's, T's, Crosses
- Slopes - we do it all

## Protection !

Trench Ratings:

- Pedestrian
- 9,000 lb GVW
